(Intro)

Now that weve come to an end
You say that you wanna be friends.

(Verse)

Dont say a word, dont make a sound,
Dont keep in touch, dont come around,
Dont ask me how Im doing now,
Dont think of me, just fade me out.
Forget about me and Ill forget about you.

(Chorus)

I cant pretend that I dont love you anymore
I cant be friends cause it hurts like its never hurt
before.
Now you think that Im cold and I dont care about you,
Im better without you, couldnt be further from the truth.
Girl, Im dying, Im just trying to survive you.

(Verse)

My scars are still burning since you walked away,
Cause you rip them wide open when I see your face.
Im back at square one trying to breathe through the
pain,
You dont even know what youre doing to me.
When I get through to life after you?

(Chorus)

I cant pretend that I dont love you anymore
I cant be friends cause it hurts like its never hurt
before.
Now you think that Im cold and I dont care about you,
Im better without you, couldnt be further from the truth.
Girl, Im dying, Im just trying to survive you.

(Bridge)

Now that weve come to the end
You say that you wanna be friends.
But I,

(Chorus)

I cant pretend that I dont love you anymore
I cant be friends cause it hurts like its never hurt
before.
Now you think that Im cold and I dont care about you,
Im better without you, couldnt be further from the truth.
Girl, Im dying, Im just trying to survive you,
Im just trying to survive you
