There's a sentry in a uniform to watch the VIPs along
the hall
Strategical discussions taking place behind the steel
plated wall
The agents issue the statements to the waiting press
who circulate the words
Justification, propaganda, Western foreign policy
across the world

Chorus:

In the name of the people
All of this is done in the name of the people

They read their books and study hard, cigarettes lit in
the claustrophobic gloom
West of the University Road, the world outside is ghost-
like in the room
Frustrated and impatient and intelligence sharp and
twisted like a child
Death is an aphrodisiac now, the fuses on the table
slowly wired

Chorus:

In the name of the people
All of this is done in the name of the people

Hold me tight, hold me fast

Standing here on the wrong side
Of this bullet-proof glass
There are no questions left for us to ask

It's soldiers night at the discotheque, pick up a girl and
drink to home afar
Spending money like water on the watered drinks
available at the bar
The ones who never were given much, never asked
much of anything in recall
But there's a black bag in the corner and it doesn't
belong to anyone here at all

Chorus:

In the name of the people
All of this is done in the name of the people
