- There's a witch hunt coming - Screaming down on it's
rebirth - There's a crusade coming
- Hellfire back here on earth - See the light in their eyes
shine - Listen to their words like
swords - The Christian militia is marching now

- There's a witch hunt coming - Born from all those
American fears - There's a new purge
coming - An inquisition for all of us here - Hold onto
your sanity as best you can - While
some Hitler claims to speak for the Son of Man - The
Christian militia is marching now

- Hatred makes the adrenalin flow - Stir up the fire
watch it grow - Everybody loves a
righteous cause - Old lives forgotten in holy wars -
Everything forgotten in holy wars

- There's a nightmare coming - Shut up your doors
close your mind - There's a nightmare
coming - Born again, born again blind - The girls show
the way, then show their legs - With
American showbiz razmatazz - With sex in one hand
and a gun in the other - Christ returns

- The right-wing respectable clampdown clan - Find
their figure head in a holy man - Here
come the Christians a hysterical mob - Worshipping the
Devil in the name of God
- Worshipping the Devil in the name of God
