- Like a desert, so smooth - So calm, like velvet - Like
wire, so taut - So stretched, like steel
- The surface is rippling - And straining and cracking -
From within

- Like a bomb, just ticking - And waiting, like hours -
And hours keep folding - And winding
and stretching - And deep down inside - The
foundations are tearing apart - And the holes are
all gaping - Swallowing everything - Please take me out
of this dream - Tension

- Nightmares like circles - Of lies all hidden - Seething
and smouldering - Under the covers
- No fire, no passion - But uneasy silence - And peace -
In terror I'm waiting - For the one
great explosion - Please take me out of this dream -
Tension
