Visit "[Technicolor Lover](#)" on MotoLyrics.com

She came from a world that is so far out
Roller skating into my life I never had no doubt
She said where to get that velvet colored hair
I said I got lot's more somewhere
If you touch my big _____
And she said I come from a world that is so far out
And I said so do I
And she may not be the world's solution
But she's a world class revolution
Technicolor lover
Rate my heart
Technicolor lover
Sate my heart
Technicolor lover
Take my heart... now
She came from a world that is so far out
Roller skating into my life I never had no doubt
She said where to get that velvet colored hair
I said I got lot's more somewhere
If you touch my big _____
And she said I come from a world that is so far out
And I said so do I
And she may not be the world's solution
But she's a world class revolution
Technicolor lover
Take my heart
Technicolor lover
Rate my heart
Technicolor lover
Sate my heart... now
