Lifestyle with no heat baby
I told em a one in a million to work on a billion and
before trillion
Truck dealing smokin looking for a way out
In and out the stash house from the South
Move cross the mouse when we walk we proud when we
talk we growlin
Bout my rappin that's style check the bitch don't check
the dip
I know you heard don't fuck with him that's that damn
Mexican
And we don't want no pexican makin more than a
minimum
Runnin trough the new millenium grabbin the mic and
wreckin them
Wreckin them off and checkin em unload the ship
break the brick
I test the dope then lick my lips gotta take a trip then
make a lick
Make a hit I aint afraid of shit watch my candy flip
as I hit the streets smokin on hydro stay a lid smokin on
my snits
til my fingertips ignite yourself while I'm livin then
get in a grip and disturb the dent
I'm workin in when I'm earnin in so bounce on in
Get on in ride a dick get a playa hit

million dollar stars find us at the bar
flossin in our cars cause you know who we are
million dollar stars find us at the bar
flossin in our cars cause you know who we are

Money gives me power power and money create stars
Everywhere I go fingers pointed at my fancy cars
all I realize is to do is just keep flickin and givin my best
bring the snow and the pain and the real for the foes
and the rest
cause money make quick while this other niggas life
Don't name names just kept inside pop trunks post

cause livin high
Always tell other till the day I die
Time to keep packin neighborhoods welfare
Take world's express gonna take you there
Sit back on your ass why stare
I don't give a fuck if my boys don't care
Livin in G role island demma block flakes
Around me I'm so hot it's look at every face
Potential plot choices I face I would escape if I could
There's nowhere to go so ill b
providin crack cocaine for my neighborhood
Scream out in pain for the game while you let em know
Why ever playing in castoris and bathing in white snow
white snow

million dollar stars find us at the bar
flossin in our cars cause you know who we are
million dollar stars find us at the bar
flossin in our cars cause you know who we are

soy un pistolero yo no tengo miedo
I hit the fucking callez gettin ready for some pedo
Let's get this shit zero lace con pedro fumo mariguana

cosas
que llo pienso lla es tiempo for the mexicanos to come
up in
This juego luego aser dinero quiero ser millionario
Driving around my town in a nice forricado
with the house on the lago aya en el lado tirando
