"Good Morning People"

Visit "[Good Morning People](#)" on MotoLyrics.com

Never thought I would see the day
since that your lovin' is here to stay
Everytime I want to move
can't tell myself I'd start to groove
when I'm dancin' slow I'm sure you know I love you.
Oh, I love you.
Good morning people, good morning sun
good morning happiness 'cause
our love's began.
Good morning people, good morning sun
goodbye your loneliness 'cause
our love's began.
Now that the morning sun is here
do all I can that will keep you near.
Just take our time
and watch the day awaken.
Oh, I love you.
Goor morning people, good morning sun
goodbye your happiness 'cause
our love's began.
Good morning people, good morning sun
goodbye your loneliness 'cause
our love's began.
