Even tho' it's late I'd like to stay around with you  
it's the first time I'm in love, I don't know what to do  
Even if the sun's not shining I can see the rain  
even if it snows tomorrow things will be the same  
whenever you are I can't go wrong  
so just it there and let me sing my song.  
All my friends can understand what's happening to be  
and they can't believe the revelations I can see  
stream that after all the star may finally find love  
so it seems a point it's right that love comes from about  
whenever you are here I can't go wrong  
the love you give makes me get strong  
and even if the sun grieves you to shine  
in darkness you would still be mine so  
even if it's late I'd like to stay around with you  
it's the first I'm in love and I just don't know what to do  
'cause everytime you call and tell my name  
you know that I can see the rain  
and if it knows will always be the same  
and even if it knows that love will be the same.
