Hearts on fire, head over heels
Ain't that the way it's supposed to feel
But my heart just ain't got nothing to say
Lovesick, lovestruck, walking on air
I don't feel a thing, and it just ain't fair
But I know she's out there
It's just a matter of time
CHORUS:
But my heart ain't talking
My heart ain't talking
I've been listening hard
For something coming down the line
I've been waiting for a woman who has the key
To unlock these chains inside of me
But my heart ain't talking, and I'm still a lonely man
Brunettes, redheads by my side
No one can say that I haven't tried
But my heart seems to be a little bit blind
There's a woman somewhere just made for me
And she'll know the way to make my heart sing
And once I find her I'll never let go
(CHORUS, 2x)
No, my heart ain't talking, and I'm still a lonely man
