Tonight I'm feeling bad, girl
join my dreams, make me dream
I've never changed my mind, girl
that's what I need to say
I'm never gone away
to try some distant place
I hope that we can build up some world together
where troubles can be quiet seas again
Tonight I'm feeling bad, girl
make me dream, join my dream
I'm never gone away
to try some distant place
I hope that we can build up some world together
where troubles can be quiet seas again.
