Alone laying on the ground  
Waiting to be found  
Can't let out a sound  
Alone and now way out  
[x2]

Let me out, let me out, let me out, let me out.....

Alone in this lonely place  
Was i another case  
Of the bomb that fell today  
Why am i to blame  
Alone in this lonely place  
Was i another case  
Of the horrors in our days  
Why am i to blame

[Chorus]  
Nananananana no way out  
Far away, far from home  
Nananananana no way out  
Of this place, all i know

Now i'm all alone  
Tragedy has hit my home  
Time has come and gone  
But still the damage has been done  
[x2]

Let me out, let me out, let me out, let me out.....

[Chorus]

[Chorus]

Nananananana no way  
Nananananana no way  
Nananananana no way whoa, whoa  
[x2]
