You were the hunter and the queen of the night
and you were looking for an easy prey
i was a loner who got caught in your sight
i was yours and didn't get no say

pre-chorus

one shot of your potion
now your blood is in my veins, yeah
it burns like poison
what the devil have you done

chorus

voodoo woman
you got me in the mood for some lovin'
voodoo woman, i swear you put a spell on me
voodoo woman
i can't believe the things you're making me do
now i'm addicted to you, oh no
hey sister sin your love is needles and pins
i'm like a puppet on strings
that's how you're running the show
