I know you wished that you had been there to say  
goodbye  
I know you wished that you could turn back, the hands  
of time  
I know the pain of loss you're feelin' is almost more  
than you can bear  
But let me give you hope in your despair

All you need is God and time to heal your broken heart  
God and time, to lift you up from where you are  
I don't have all the answers, to all your questions why  
All I know is all you really need is God and time

Only God can truly understand how His healing works  
And how He uses time in our lives, to overcome our  
hurts  
But one thing you can be sure of, He is not surprised  
By anything that happens in your life

All you need is God and time to heal your broken heart  
God and time, to lift you up from where you are  
I don't have all the answers, to all your questions why  
All I know is all you really need is God and time

Oh, I know this side of heaven we may never  
understand  
But we can trust the heart of God and know we're  
always in His hands

All you need is God and time to heal your broken heart  
God and time, to lift you up from where you are  
I don't have all the answers, to all your questions why  
All I know is all you really need is God and time, God  
and time
