"Song of Christmas"

Visit "[Song of Christmas](#)" on MotoLyrics.com

It's the sound of falling snow
As we hurry out to go
Caroling with family and with friends
It's the laughter in the air
By the fireside we share
Sweet memories we've made throughout the years
And as we gather close
With those we love the most
Read the story of Jesus
Christmas time is here

CHORUS

Can you hear it
The sound of peace on earth
It's the song of Christmas
Celebrate His birth
It's the Chorus that rings in human hearts
God came down here with us
It's the song of Christmas

Mary softly spoke His name
As the angel Chorus sang
Announcing that our Savior had been born
And Joseph prayed to God above
For this precious gift of love
As he held the hope of Heaven in his arms
The shepherds spread the word
The greatest story ever heard
How God came down to save us
Our Lord Emmanuel
The message is so clear
It's the same year after year
The sound of hope
