Well, it's a brand new day and already this world's
closing in
The telephone rings and here I go again
And I need You here to bring some rest to my heart
I whisper Your name and Lord right there You are

When I'm with You this world stops turning
One look in Your eyes and my heart stops hurting
I love the way that You know just what to do with me
When I'm with You

We've all had those days when nothing would work out
right
Those up and down days, returning to sleep last night
And we need You here to bring some rest to our heart
We whisper Your name and Lord right here You are

When I'm with You this world stops turning
One look in Your eyes and my heart stops hurting
I love the way that You know just what to do with me
When I'm with You

One day the sun and the moon will stop shining
And every star is gonna fall from heaven
But on that day I won't be afraid
I know You'll be there beside me

When I'm with You this world stops turning
One look in Your eyes and my heart stops hurting
I love the way that You know just what to do with me
When I'm with You

This world stops turning
One look in Your eyes and my heart stops hurting
I love the way that You know just what to do with me
When I'm with You, yeah

When I'm with You
(I love the way just what You do with me)
Baby, baby, baby, oh, no, no
No, no, no, no, no, no, no
