I keep on saying to you
I keep on telling you
That I love you so and I want you to know
Oh please believe what I say
I promise you I will stay,
I'll be here for you my love until the end of time(until
the end of time)

Dont want to hear you cry
Dont want to say goodbye
Stay here with me
I dont want to hurt you baby
Cuz I love you

I keep on saying to you
I keep on telling you
That I love you so
And I want you to know
Oh please believe what I say,
I promise you I will stay,
I'll be here for you my love
Until the end of time(until the end of time)
