I will drift tonight
Gone without my mind
Slip in our disguise
Go and wait you're out of site
I'm in the war
No feet and no resolve
She's in the way
I better get her laid

I know that you're gonna fight
Only 'cause you weren't invited
Wait until the midnight sky
Give our brothers a chance to find it
Find it through the streets of light
In between the beer
And the green clouds of the morning time
You won't be around to ignite
My fire

Sway to a lonely drain
I recognise this pain
Eyes, I'll go grab my ties
I need somewhere to die
I can't control
My feet and know resolve
She can't complain
I'm gonna get her laid

I know that you're gonna fight
Only 'cause you weren't invited
Wait until the midnight sky
Give our brothers a chance to find it
Find it through the streets of light
In between the beer
And the green clouds of the morning time
You won't be around to ignite

Only work in circles
Only with your friends
Get them at the red light
If you can pay for them
I'm not stuck here waiting

To leave her out of fear
OÂ' my God is paving
The only road in here
The only road in here

I will sleep tonight
Gone without my mind
