I feel like drinking cheap wine  
Wishing I could hold you one more time  
Did I ever tell you, you're always on my mind?  
That's why I feel like drinking cheap wine  
I feel like digging up bones  
From a past that just wont leave me alone  
Didn't mean to wake you  
Just didn't wanna be alone  
Cuz I feel like digging up bones  
I'm just asking for a second chance  
If you give me one I won't let you down  
This aint no love at first sight romance  
Baby love is blind, the second time around  
I feel like making things right  
If you gave me a chance, I think I might  
I don't wanna argue  
I don't wanna fight  
I just feel like making things right  
I'm just asking for a second chance  
If you give me one, I won't let you down  
This aint no love at first sight romance  
Baby love is blind, the second time around  
I feel like drinking cheap wine  
I got your favorite bottle right here by my side  
If you wanna see, I'll be up all night  
Cuz I feel like drinking cheap wine  
I feel like drinking cheap wine  
I feel like drinking cheap wine
