"Pluto Drive"

Let's go to Pluto, the atmosphere's clear
We'll be really cool there with nothing to fear
Let's go to Pluto, it's cold and it's damp
Where children are heroes, death is high camp

I want to see Pluto... I want to have fun
I want to turn blue under an alien sun
Oh let me see Pluto, it seems such a gas
With oceans of methane and petrified grass

Let's go to Pluto
Let's live on the dot
See the bad moon rising in a lunacy knot

Come one let's do Pluto
It's really not far
An unleaded dream drive to the prettiest star
I want to see Pluto, but maybe I'll wait
'Til the world turns to meet its plutonium fate
The days will be long here, the years will be more
Let's go to Pluto like we did before

Let's go to Pluto
Let's live on the dot
See the bad moon rising in a lunacy knot.
