"You're so fine.
You're on my mind.
Every single day most of the time.
You're so fine.
You're on my mind.
Just staring at you makes me blind.

You're so fine.
You're on my mind.
Every single day most of the time.
You're so fine.
You're on my mind.
Just staring at you makes me blind.
And people say you're one of a kind.
It okey with me I don't mind.
You're so fine.
You're on my mind.
Every single day most of the time.

You're so fine.
You're on my mind.
Every single day most of the time.
You're so fine.
You're on my mind.
Just staring at you makes me blind.

Yeah you're so fine.
Yeah you're so fine.
Yeah you're so fine
You're on my mind."
