Do you know why  
And I know that I found love  
And I'm always never there  
When I found you

And if I had it what I wanna  
And I tell you what to do  
If you keep me running after you

C/o:  
And I thought  
I'm watching you  
But I don't ever make it  
If I, I found you  
And I thought the life line headin  
You like I do  
And I thought...  
And I don't admire the things you do

Time after time  
I think I'm sleeping love the time  
I don't ever dare  
When I found you
