[Intro]

Yo I need everybody to please stand  
We about to go in,  
This the anthem, for that lady you love  
Turn up, turn up

I love her, you know her like I know her  
So powerful, so beautiful, it's crazy to think  
The things that she'll do to you  
She'll change your life  
She'll give you the freedom to be what you want  
She donna nice, she's the only one

I climbed on the bar to see her  
Everybody in the world wants to meet her  
I drive thousands of miles just to take a picture  
So beautiful and magical I dripped and bust since I was  
a little boy  
So I need to find her, she is a special girl  
Nothing is like her, I search for her around the world  
I wanna make her mine, think of her all the time  
She'll never leave me, she'll never leave me

[Hook]

Her name is America, she is my lady  
I swear to protect her, oh so amazing  
Her name is America, she is my baby  
I promised to love her, more than god above us  
She is America, and I want her  
She is America, and I love her

Oho, America, America, that girl  
Oho, America, America, uh that girl

Fight to people, battling they want to steal I  
Pick my armor up and put my spears down  
She's my number one, the only one I wanna stay by her  
side  
So I need to find her, she is a special girl  
Nothing is like her, I search for her around the world  
I wanna make her mine, think of her all the time

She'll never leave me, she'll never leave me

[Hook]

Her name is America, she is my lady  
I pledge to protect her, oh so amazing  
Her name is America, she is my baby  
I promised to love her, more than god above us  
She is America, and I want her  
She is America, and I love her

America baby, hold on baby  
Wassup baby, go ahead baby  
Maybe we can jump off in the car  
Drop the top and look at the 50 stars  
Dressed with skin tight, red, white, blue  
Her heels like uh, and I was like uh  
Baby go and lie, maybe later on we can hit my spot  
She know trina and her girlfriend gina  
Going back and forth like they was serena  
Her mom say'but god bless america  
Twerk it, twerk it, twerk it, to the dawn's early light, light  
Mami in the club, full of stars, we got stripes  
Walk it out in the sound, tryina get the civil rights  
It's mister world wide and your man nick cannon  
We salute her all night

[Hook]

Her name is America, she is my lady  
I pledge to protect her, oh so amazing  
Her name is America, she is my baby  
I promised to love her, more than god above us  
She is America, and I want her  
She is America, and I love her.
