chorus

we don't know no doctor no lawyer  
lawyers doctors  
never thought about college as being a border  
daddies and fathers  
the streets were our mothers  
the blocks out fathers  
mark the dollars  
see the pimps in the corner  
pushing their product

i've been pimp pimping since pim pimping  
my grandfather did it and his grandfather ..in his van  
since plaza .. now we switch and â€¦ to their backs  
still addicted to the crack although i am not an user  
seen a city get trashed like â€¦.  
trying to get them dollars like a lot of producers  
embedded in my mind we gotta fly some gucci louis  
few jewels no thousand dollars shoes

christmas swimming pools and use the music to do it  
pimps never tell heir secrets .. the movement  
.. automatic swag where we grew up was ruthless  
now you try .. instead of picking up a book  
we rather look at tv guides idolize white models  
with their little white lies all the images of fathers  
are just a bunch of white guys

chorus

let me holler dog .. bother for a minute  
how you grow up in the hood you're rich now and never  
come back again  
that ain't pimp what you think of windows and â€¦  
that ain't him yes it is hello dog where the hell you've  
been?  
hood living good living used to run with the big â€¦  
got cloud moved out got jumped .. in his business  
..heard you said it in the magazine  
last week was in amsterdam with that .. queen

exactly what you're gonna do when folks don't want  
you no more  
don't call you no more won't treat you like a star no  
more  
come back around here dog that's all i know.. used to  
hang with you man  
..you won't gonna do a damn thing about it  
you came too late and your fame was running out  
it was you when .. lose their house  
.. found thorough word of mouth  
the word is out you turned your back  
you had your back what you're gonna do now

chorus

these are role models

made the plan in my head and buck it up with the  
muscle  
fuck being the best rapper they are respecting the  
hustle  
i make it clear like a sample lead by example  
taking trophy like the head of â€¦.  
sending me higher brazilian .. fire  
all my .. radio the fm don't play me  
.. black white ration but it's ok  
get busy like a street team in a month release  
please nigger try to be the big man and they know that  
..  
the chicks are fan of me  
and they can't stand it running cause the crew ..
