"I wanna stay with you, forever"

[RZA]

Yo, yo, the A-1 sauce, the Divine Force  
My mind blind force is known to blow time off course  
Even, if I rode around the world on a blind horse  
Strapped down, I'd still get my point across  
Allah is father of all  
You debate whether big, whether small  
Whether short, whether tall  
Whether dense, whether length  
Whether strength, whether width  
Either man, animal, bird or fish  
Whether, black or white, more shapes than snowflakes  
Existin', everywhere but you still can't locate  
The man of steel couldn't bend me  
Time couldn't end me  
Even the great devil Satan that tried to befriend me  
Understand the equality, God in a bodily  
Form, lettin' my knowledge be born  
Lettin' my knowledge be born...

"I wanna stay with you, forever"

[RZA]

Yo, yo, yo  
I be the fatal flyin', I'm like NATO flyin'  
Over your country and droppin' down forty tons of iron  
Filled with explosives, your chance is hopeless  
We have your head poppin' up like the blowfish  
I'm not talkin' Hootie, nigga pass the zootie  
I could bag the cootie, maybe smoke the ootie  
The runaway train with no track  
I got the heart of Faye Dunaway whippin' that child with  
the coatrack  
T.V. droppin' bombs or droppin' germs  
Baby moms in the courthouse, she's droppin' terms  
Guns go off, bustin' all directions  
D.J. choose, another fuckin' dope selection

"...with you forever..."

"Like the corners of my mind...."

"I wanna stay with you, forever"

[RZA]

Yo, the pen is mightier than the sword, as I face my  
worldly challenge

In the scale of justice and my heart remains balanced  
and neutral

My respect for all men is mutual

As my thoughts surpass a level to which you devils  
compute to

You've been given the chance to hear the true and  
living

So do the knowledge, son, before you do the wisdom

So you can understand, how the thunder and

Lighting above your head is caused by the Son of Man

We experimentin' with high explosions

That cause the place to quake and the surface erosions

The earth produce lava like the mouth produce saliva

This wisdom goes deeper than your scuba diver

In search for the pearl jewels sold to Tiffany

My verbal heart symphony will strike the epiphany

Insight, ignite, and then men might, see love and hell

Hell and right, then excel, to be masters of your  
circumference

First, by obtainin' mastery of your common sense

This supreme wisdom clears a man's vision

You can see it through the lies and the fantism

Of the equivocal, two-faced political individual

Who's only out for residual, fabricatin' lies

To eradicate the wise

But we come to civilize and gravitate to the skies

Of the heavenly celestial sphere

Trust me, son, it's dear, in between your ears

[Chorus 2X: RZA]

A day to God is a thousand years

Men walk around with a thousand fears

The true joy of love bring a thousand tears

In the world of desire, there's a thousand snares

"I wanna stay with you forever" (2X)
