Blue Bird

I got a blue bird, a blue bird on my shoulder  
I got a blue bird, a blue bird on my shoulder  
I saw her standing, standing by the water  
She was naked, her hair in great disorder

And I know that I fly and the rest is lie

I sent a warning, a warning of disaster  
I sent a warning, I warned of great disaster  
I sent that blue bird, a blue bird down the water  
I sent that blue bird, floating down the water

And I know that I fly and the rest is lie  
Hold me, hold me, hold me close
