

Creepier Lagoon "Claustrophobia"

Visit "[Claustrophobia](#)" on MotoLyrics.com

Stolen hearts and broken bones
Wind up your jealous friends
That dare to kiss you on the cheek

All fools share the same coats on rainy days
Pass with claustrophobia
Should I run away from you, claustrophobia?

Autumn smoke and smell of orange
Call all those sickly sweet girls
From High School who knew your name

Every strange face holds you in a plaster
Cast with claustrophobia
Should I run away from you, claustrophobia?

Well, I'm so near, I can taste everything
And I'm sitting here, I'll run away from everything
