"I Got You"

Now my lonely days are gone
and I can't smile again
It's all because of you
And baby..
until I, I can breathe again
coz you're my lover and my friend
It's all about you
My baby..

I'm so glad, that I got you
In my life, in my life
I'm so happy, that I found you
In my life, in my life

Now my lonely days are gone
and I can't smile again
It's all because of you
And baby..
until I, I can breathe again
coz you're my lover and my friend
It's all about you
Making me live again

I'm so glad, that I got you
In my life, in my life
I'm so happy, that I found you
In my life, in my life
