Fill the led cup with led from my heart  
You bled your heart so well  
I don't want to think  
But i don't want to know  
We'll live in the sky  
We'll land on the moon  
They'll live in the sky  
They'll land on the moon  
And if the blood line flood [on the two of you, do of  
you?]  
When you melt your lips  
I don't want to recall anything you said at all  
We'll live in the sky  
We'll land on the moon  
You'll live in the sky  
Then to the moon  
They are. They are. They are. They are. They are. They  
are. They are.  
They are. They are. They are. They are
