### RHYTHM OF LIFE

Words & Music by Nick Granato

V1 - Everyday you'll find me thanking God, for just  
another day to breathe

Sure there's things that I still want, but I have  
everything I need

Regrets are best left forgotten somewhere in the past,  
Cause there's no time to waste these days, everything  
moves so fast

Chorus -You've got to learn to take chances, Stepping  
over every line

(2,3-you've got to) Love without limits; teach your heart  
how to fly

(1,3-You've got to) (2-Just) Listen to your spirit, Feel it  
movin' insideâ€¦

Just keep dancing to the musicâ€¦ Groovin' to the  
rhythm of lifeâ€¦

V2 - Life is never easy, At times it hurts like hell,  
Sometimes you see it coming, other times it's hard to  
tell

When you feel the world start closing in, just remember  
what you've found

Go ahead, skip a beat, turn the music way up loud  
(you've got to)

(Chorus)

(Bridge) Let goâ€¦ holding on just holds you back  
And knowâ€¦ no one has to live like thatâ€¦ no

V3 - So take everyday for granted, make every moment  
count,

Cause there's no need in living in the shadow of a  
doubt,

Feel the movement of the sunshine, Hear the chorus on  
the wind,

There's music in your heartbeat, go and show them  
how to liveâ€¦

(Chorus)
