

Nick Granato "Tropical Philosophy"

Visit "[Tropical Philosophy](#)" on MotoLyrics.com

(Chorus) I've got a tropical philosophy
With a laid back analogy
Just coastin' along, singing my songs
Living down by the sea
I've got a barefoot mentality
And a sun drenched reality,
Just taking it easy
Cause whatever will be, will be
(V1) Most things in life aren't worth worrying about
Just give it all time and it usually works itself out,
Nothing pressing, nothing big enough
To cause concern or make me jump
No problem here man, I need another - coke and rumâ€¦

(Chorus)

(V2) I've learned that it's best to just roll with the flow,
I must confess life is best when you just let go
No one ever said you had to keep up this pace
You need to relax, let the other rats' race
When you start to sweat, that means it's time
To slow- it - on - downâ€¦.

(Chorus)

(Bridge) Taking my time to make each day last,
Today may bring rain, but this too shall pass

(Chorus)
