(V1)

Another new day begins to dawn
Yesterday slipped by and now it's gone..
Nothing left to leave but what's left behindâ€¦
Another brand new day the skies are blue,
Today seems to be so overdue
It's been long, but I guess it's just in timeâ€¦ (and)

(Chorus)

Here we go again, back to start here at the end,
DÃ©jÃ vu, it's been said, it's been done,
And here we go again,
Looking forward to where we've already been,
Yet we run, that's true,
But there's still nothing newâ€¦ Under the sun

(V1)

Been looking for a change in atmosphere,
But nothing ever will be crystal clear
Cause every angle has a different point of view
So friends come and strangers go,
And everyday is out of our control,
Situations change but it all remains the sameâ€¦

(and)

(Chorus)

(Bridge)

Life's an endless circle, it just repeats itself,
And it's all been tried, somewhere in time
By somebody elseâ€¦

(V3)

So the planet turns round and round,
And we look up to see if God looks down,
It goes to show that we don't have a clue
Another new day begins to end,
And we'll face tomorrow all over again,

But that's ok, cause it's all newâ€¦ to me and youâ€¦

(Chorus)

(Tag)

And here we go againâ€¦.
