Believe in yourself  
Don't let the fire ever go out  
Believe in yourself

Believe in yourself  
Don't let the lies hurt you inside  
Believe in yourself

And when the hiding comes don't cry  
When the hiding comes don't you cry

Believe in yourself  
You're one of a kind got to leave this behind  
Believe in yourself

Believe in yourself  
Don't stop the fight, you've got to keep it alive  
Believe in yourself

And when the lightning comes, don't cry  
When the lightning comes, don't you cry

Believe in your hope  
Believe in your mind  
Believe in your strength  
Believe that you're kind  
Believe that you're safe  
Believe that you're loved  
Believe that you're fine  
Believe that you might

Believe in yourself  
There ain't no one else  
Don't ever let go

Just believe in yourself

Just believe in yourself
