I looked up at the stars tonight  
Something happened for the very first time  
Could this all just be a dream

Some wait a lifetime for a moment like this  
Some search forever for that one first kiss  
I can't believe it's happening to me

You are beautiful inside and out  
Got my world spinning upside down  
You're the only one that can set me free

I remember that blue crystal sky  
The sun reflected in your eyes  
It's clear now for me to see

When I look in your eyes  
I know that deep down inside  
Everything's gonna turn out alright  
And when I glance right at you  
I know that this love is true  
I'm gonna stay right here with you  
All I want and need is you

When I watch the sunset fall  
I see the beauty of it all  
You made all my dreams come true

And today is your special day  
But everyday is a special day  
When I have a chance to be with you  
All I want and need is you

So put your hand on my heart  
Feel it beating from the start  
It's a clue that I'm telling you  
All I want and need is you

All I want and need is you

All I want and need is you
