I woke up this morning with a feeling I just can't explain
The thought of you in my dreams takes my breath away
I know something is coming, I don't know what it's
called
Could this be the greatest love of all
I know you will catch me every time I fall

When we're lying close in the dark
So close I can feel the beat of your heart
And staring up at the starlit sky
You feel safe in my loving arms
And this much I know is true
It's all apart of a grander plan
That is coming true
That has led me straight to you

Your smile warms the early morning cold
Your light shines and I just want so much more
You keep changing but your beauty still remains
Something so sweet that I just can't explain
It's something that I have never seen or felt before

When we're lying close in the dark
So close I can feel the beat of your heart
And staring up at the starlit sky
You feel safe in my loving arms
And this much I know is true
It's all apart of a grander plan
That is coming true
That has led me straight to you

And today is your special day
And I feel that you need to know
How I feel about you
And this much I know is true
Everything I know and feel has led me
Led me straight to you

Baby, I love you
And that's what led me
Straight to you
