I missed you so much  
That I begged you to fly and see me  
You must've broke down  
Coz you finally said that you would  
But now that you're here  
I just feel like I'm constantly dreaming

Coz something's gotta go wrong  
Coz I'm feelin' way too damn good

For 48 hours I don't think that we left my hotel room  
Should show you the sights  
Coz I'm sure that I said that I would  
We gotta make love just one last time in the shower

Well something's gotta go wrong  
Coz I'm feelin' way too damn good

And it's like, every time I turn around  
I fall in love and find my heart face down and  
Where it lands is where it should  
This time it's like  
The two of us should probably start to fight  
Coz something's gotta go wrong  
Coz I'm feeling way too damn good, oh  
Feelin' way too damn good

Sometimes I think best if left in the memory  
It's better kept inside than left for good  
Lookin' back each time they tried to tell me  
Well something's gotta go wrong  
Coz I'm feelin' way too damn good

And it's like, every time I turn around

I fall in love and find my heart face down and  
Where it lands is where it should  
This time it's like  
The two of us should probably start to fight  
Coz something's gotta go wrong  
Coz I'm feeling way too damn good, oh  
Feelin' way too damn good

Oh, oh, feelin' way too damn good

I missed you so much  
That I begged you to fly and see me  
You must've broke down  
Coz you finally said that you would  
But now that you're here  
I just feel like I'm constantly dreaming

Coz something's gotta go wrong  
Coz I'm feelin' way too damn good

And it's like, every time I turn around  
I fall in love and find my heart face down and  
Where it lands is where it should  
This time it's like  
The two of us should probably start to fight  
Coz something's gotta go wrong  
Coz I'm feeling way too damn good, oh, oh  
Feelin' way too damn good  
(I missed you so much  
That I begged you to fly and see me)  
Feelin' way too damn good  
(I missed you so much  
That I begged you to fly and see me)
