(Verse 1)

He was my best friend, I tried to help him,  
But he traded everything, for suffering,  
And found himself alone.  
I watched the lying, turn into hiding,  
With scars on both his lips, his fingertips...  
Were melted to the bone.

(Chorus)

But I can still remember what his face looked like,  
When I found him in an alley in the middle of the night.  
Tell me what you know! Tell me what you gone and  
done now!  
Tell me what you know! Tell me what you gone and  
done now!  
Gonna do the trick, get it over with,  
You're better off...  
To take all you've got and burn it on the spot,  
To get high-igh, igh, igh (high-igh, igh, igh).

(Verse 2)

Three days no sleeping, he gave up eating,  
He sold his mother's rings, she said nothing,  
And pretended not to know...  
He started stealing, to supply the feeling,  
Found out he pulled a knife, on someone's wife...  
And held it to her throat.

(Extended Chorus)

But I can still remember what his face looked like,  
When I found him in an alley in the middle of the night.  
Tell me what you know! Tell me what you gone and  
done now!  
Tell me what you know! Tell me what you gone and  
done now!  
Gonna do the trick, get it over with,  
You're better off...  
To take all that you've got and burn it on the spot,  
Just to get high-igh, igh, igh (high-igh, igh, igh).  
Tell me what did, where you gone and hid?  
Show me...!  
What you really want, was it what you got?

Slowly...!  
Circle in the drain, throw it all away,  
Just to get high-igh, igh, igh (high-igh, igh, igh).  
High-igh, igh...oooooh!

(High-igh-igh-igh, high-igh-igh-igh)  
Hiiigh  
(High-igh-igh-igh, high-igh-igh-igh)  
Hiiigh

Tell me what you know! Tell me what you gone and  
done now!  
Tell me what you know! Tell me what you gone and  
done now!  
Gonna do the trick, get it over with,  
You're better off...  
To take all that you've got and burn it on the spot,  
Just to get high-igh, igh, igh (high-igh, igh, igh).  
Tell me what did, where you gone and hid?  
Show me...!  
What you really want, was it what you got?  
Slowly...!  
Circle in the drain, throw it all away,  
Just to get high-igh, igh, igh, igh  
Just to get high-igh, igh, igh, igh  
Circle in the drain, throw it all away,  
Just to get high-igh, igh, igh, igh.
