Kiss it goodbye, goodbye  
Kiss it goodbye, goodbye

Hollywood is plastic  
But easy on the eyes  
Big Apple is fantastic  
But cuts you down to size

Treat you like a doormat  
Expecting you to fail  
Says right across your forehead  
Integrity for sale

You'll be on TV  
When it starts to snow in hell  
You won't believe me  
So go and see it for yourself

That brunettes move to New York  
Blondes go California  
East coast digs the cocaine  
West coast marijuana  
Don't be surprised  
When you swallow more than pride  
It's tough to see through bullshit  
When it's up above your eyes  
(Kiss it goodbye)

Stealing comes with practice  
Lying comes with ease  
But neither one is faster  
Than falling to your knees

Money leads to fame  
And fame is the disease  
The latest epidemic  
Reality TV

You'll be on TV  
When it starts to snow in hell  
You won't believe me  
So go and see it for yourself

That brunettes move to New York  
Blondes go California  
East coast digs the cocaine  
West coast marijuana  
Don't be surprised  
When you swallow more than pride  
It's tough to see through bullshit  
When it's up above your eyes

Fame  
They...won't....let you get out alive  
Your ass...grab it and kiss it goodbye  
Fame  
They...won't....let you get out alive  
Your ass...grab it and kiss it goodbye

So let's move to New York  
Or out to California  
East coast digs the cocaine  
West coast marijuana  
Don't be surprised  
When you swallow more than pride  
It's tough to see through bullshit  
When it's up above your eyes

Fame  
They...won't....let you get out alive  
Your ass...grab it and kiss it goodbye  
Fame  
They...won't....let you get out alive  
Your ass...grab it and kiss it goodbye
