Move aside
and let the man go through
let the man go through
Move aside
and let the man go through
let the man go through
Move aside
and let the man go through
let the man go through
Move aside
and let the man go through
let the man go through
Through

If I stole
Somebody else's wave
To fly up.
If I rose up
Up with the avenue
Behind me.

Some kind of verb.
Some kind of moving thing.
Something unseen.
Some hand is motioning
to rise, to rise, to rise.

Too fight that you must cut clean.
You got to take the elevator to the mezzanine,
Chump, change, and it's on, Super bon bon
Super bon bon, Super bon bon.
Too fight that you must cut clean.
You got to take the elevator to the mezzanine,
Chump, change, and it's on, Super bon bon
Super bon bon, Super bon bon.

And by
The phone
I live
In fear
Sheer Chance

Will draw
You in
To here.

Too fight that you must cut clean.
You got to take the elevator to the mezzanine,
Chump, change, and it's on, Super bon bon
Super bon bon, Super bon bon.
Too fight that you must cut clean.
You got to take the elevator to the mezzanine,
Chump, change, and it's on, Super bon bon
Super bon bon, Super bon bon.
Super bon bon, Super bon bon.
Super bon bon, Super bon bon.
Super bon bon, Super bon bon bon bon

Move up and let the man go let the man go
Move up and let the man go let the man go
Move up and let the man go let the man go
Move up and let the man go let the man go through

Move aside
and let the man go through
let the man go through
Move aside
and let the man go through
let the man go through
Move aside
and let the man go through
let the man go through
Move aside
and let the man go through
let the man go through
