Verse 1:

I DON'T CARE!

I'm so tired of making it right for everyone else,
I'm just gonna make it right for me and myself.

I've given you my best with nothing in return.
All the letters you sent to me, I'll just burn!

Bridge:

I'm tired of all the empty conversation,
No words,
No interpretation

Chorus:

I can feel the tension
Getting your attention
How could you be so so cold?
I'm finally getting over
I can get no lower,
You said life was fair
You better BEWARE,
I don't care (hey, hey)
I don't care (hey, hey)
I don't care (hey, hey).

Verse 2:

I'm tired of being a nice girl
Cuz' it sucks!
Ya think I'm coming around again?
Your out of luck.

I've given you a gift,
But you just turned away
I've taken my time,
I'm doing this right
But now your gonna pay!

Bridge:

I'm tired of the empty conversation,
No words,
No interpretation!

Chorus:

I can feel the tension
Getting your attention
How could you be so so cold?
I'm finally getting over
I can get no lower,
You said life was fair
You better BEWARE,
I don't care (hey, hey)
I don't care (hey, hey)
I don't care (hey, hey).

Bridge (2):

Hm, let me think about things I care about more than
you:
My hair
Bubblegum
Pop tarts
Oh and my favourite is socks, they're great!
(Laugh)

Chorus x 2:

I can feel the tension
Getting your attention
How could you be so so cold?
I'm finally getting over
I can get no lower,
You said life was fair
You better BEWARE,
I don't care (hey, hey)
I don't care (hey, hey)
I don't care (hey, hey)
I can feel the tension
Getting your attention
How could you be so so cold?
I'm finally getting over
I can get no lower,
You said life was fair
You better BEWARE,
I don't care (hey, hey)
I don't care (hey, hey)
I don't care (hey, hey)!
