she was fanasies my lifes dreams are plastic her goals
are streched out out my goals arent elastic below
average d's same time she's fantastic she's the tip of
the ice berg im below water, she's a barbie just perfect
and flawless lives in topia so care free lawless im stuck
in hell better yet this place called earth when humans
degrade humans over materlistic work where three
dollar cotton turns into a three hundred dollar shirt but
barbie get that matching three hundred dollar skirt
maybe it's maybelene or maybe the people behind it
and if you don't understand that then you can just
rewind it, it's ok i can take some time and wait cause i
can spend my heart here but half of you cant relate

and turn around and just debate weather nicki minaj
birst is real or is it fake

im a barbie girl in a barbie world life is plastic its
fantastic you can brush my hair un dress me
everywhere imagination life is your creation com'on
barbie lets go party (x2)
