Look sucker, this my gun butter  
Street fighter bitches, this the up cutter  
Nunchucka', no time to ducka'  
Sign of the cross, cause this is her last suppa'  
Play with me, check who came with me  
I bought a couple 9â€™s, plus the k's with me  
I breeze through queens to check some bad bitches  
I stunt so hard, assess the damages  
Cause this that aw, this is that aw  
And yes the party bitches go get the bandages  
Young yummy, fuck you got from me  
I hate a phony bitch that front that chunk chummy  
I'm me top shotta' drop the top toppa'  
Big fat pussy with a icy watch

I am your leader, yes I am your leader  
You're not a believer, suck a big dick

When I fly, it's one letter and one number  
You wack hoes could get hot for one summer  
After that the queen will still reign here,  
I'm Santa Claus to these hoes without a reindeer  
St. nick. ross, hey rick. I just got a toy, cost eight fifty  
Now I'm in the hood, niggas is getting woodies  
Hit the hot topic, nicki minaj hoodies  
I'm a brand bitch I'm a brand  
Go to harlem, and kick kim  
It's dipset, get your dick wet  
Boarded the big jet, and got a big check  
Now you tell me, who the fuck is winning  
I'm on my russel simmon, nicki denim nicki linen

I am your leader, yes I am your leader  
You're not a believer, suck a big dick

[Rick Rose:]

Jealous niggas is gossip, watch me tie up my laces  
Bitches be jocking, tell by the look on they faces  
8 digits I'm clocking, a lot of gold in my bracelet  
7 figures on watches, I told my mama I made it  
Made a deal for my project, just give me 10 mill I'm gravy  
I went back to the projects, and 2 mill in mercedes  
I get hit from your lady, have her bill me later  
I'm on school with the hustle, just gave rihanna my pager  
Heart break hotel, I'm in the 8 rise suite

Rolls royce wood, I'm talking play off seat  
Know that boy busy balling I like to play all week  
Monday night with the ross, a busy man with a beat  
Power slamming them hammers I get you handle for free  
So where the fuck is her manners, she gives brain while I tweet  
DM, in the BM, you see 'em, the bucket, you love it  
Motherfuckers on my dick, suck it

I am your leader, yes I am your leader  
You're not a believer, suck a big dick [x2]

[Verse 4: Cam'ron]

See the car is european but got imported from tokyo  
Looking like a shark, the nose call it pinocchio  
Well off, wealthy, lv, logo  
Middle of july but the wrist on snowflow  
Only do the aspens, y'all got a poking nose  
I'm sunny and you must sun  
Ride the whip, 5 on the hip, live with the pies got 9 for the flip  
High with a bitch, she cry for the dick, oh my know why? I'm fly as it gets  
Now I need an aspirin  
She said you're only cam'ron,  
Girlfriend you don't know cam'ron from nowhere  
So don't go tampering, you're just a nail I hammer  
Never girl that's on my camera  
My name you cannot slender, adult girl watch your manners  
She run and tell her mother 'I think I love him nana'  
Because you sat up on my lap? nah, I ain't santa.  
They call me pot piper, OJ no glove, I knife her.  
Never be a lifer, even do right cause  
Why would I fight her? don't even like her

I am your leader, yes I am your leader  
You're not a believer, suck a big dick [x2]
