

## Nicki Minaj "Masquerade"

Visit "[Masquerade](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Feel the beat at the drum  
Move like you really wanna be number one  
You could beat out the comp  
Run like you really wanna be at the top  
Stop, adrenaline rush cause  
You have been identified as a hustler  
Topical discussion repeat it like a percussion  
Chuck the douce up, and tell 'em is just love

Damn diggady dog  
Let them bums stay mad cause we living it up  
Shelve tops is on  
And I pop it, like I'm popping  
Like a popping some corn

And now, I don't wanna take you  
If we fall down  
Don't get upset, and now it's just the beginning  
And we'll figure it somehow

Right now masquerade, master the merry go round  
Right now masquerade, master the merry go round  
Right, now, it's something you created  
It's never ever too late  
It's never ever too late  
Right now  
Okay to make a mistake  
Yeah baby this is your day  
It's time to masquerade

Bass bass  
Feel the bass in ya face  
Hit the finish line  
First place in the race  
Yes, king kong on ya chest  
Running and I'm coming up  
Baton to your left  
Yup, you could be who you want  
You could be who you is  
Never be who you aren't  
Never ever fold under pressure  
Desperate times, get desperate measure

Damn diggady dog  
Let them bums stay mad cause we living it up

Shelve tops is on  
And I pop it, like I'm popping  
Like a popping some corn

And now, I don't wanna take you  
If we fall down  
Don't get upset, and now it's just the beginning  
And we'll figure it somehow

Right now masquerade, master the merry go round  
Right now masquerade, master the merry go round  
Right, now, it's something you created  
It's never ever too late  
It's never ever too late  
Right now  
Okay to make a mistake  
Yeah baby this is your day  
It's time to masquerade

I'm a call ya afro cause you never bald  
Fuck all you bitches and I'll never call  
Next day, suck my test day  
I ain't' playing games  
Bit my check mate  
Breaker 1 9 [x3]  
All my party people let me see ya one time

Right now masquerade, master the merry go round  
Right now masquerade, master the merry go round  
Right, now, it's something you created  
It's never ever too late  
It's never ever too late  
Right now  
Okay to make a mistake  
Yeah baby this is your day  
It's time to masquerade  
Right now
