The morning face to face
Deceiced by beautiful pictures
Killed by crazed thoughts
In gods eye the crime on humanity
Sheer hate before love
The disappointment of gods countenance
The self-mutilation
The destruction of myself
Fear disappears into sweet desire
The dreams of remembrance
The fear of reality
Confused creatures formed by bizarre pictures
Faces of immortality
Faces of the unknown
Faces of death
The morning face to face
Deceiced by beautiful pictures
Killed by crazed thoughts
In gods eye the crime on humanity
Sheer hate before love
The disappointment of gods countenance
The self-mutilation
The destruction of myself
Fear disappears into sweet desire
The dreams of remembrance
The fear of reality
Confused creatures formed by bizarre pictures
Faces of immortality
Faces of the unknown
Faces of death
