"Welcome to..."

Lost in a nowhere land
Lost in your head
The journey to the center of your soul
The voyage that never returns
Fragments forming to pictures
Welcome - Welcome to
To the sacrament and the everdawn
Welcome to
Welcome to space and time
Welcome to the neverland
Welcome to - Welcome to
Desolation growing from despondency
Dreams reflected in faces
Reality is the temptation of life
A lie developed by satan
Sparkling thoughts of death
Welcome - Welcome to
To the sacrament and the everdawn
Welcome to
Welcome to space and time
Welcome to the neverland
Welcome to - Welcome to
Dressed in darkness under the shadows
The outsiders will never arrive
The legacies of evil are deprived
Testimonies of days past are forgotten
Welcome - Welcome to
To the sacrament and the everdawn
Welcome to
Welcome to the unknown
Welcome to my nice world
Welcome to - Welcome to
