I know I know
I need to let it go
I know I know
I'ts gonna burn a hole
But you're the one for me, yeah yeah
You're the one for me

So If you don't start to come through soon
I really think I'm gonna write a song
About how it feels to fall beneath your wheels

And up above panic goes
Starts this feeling that just leaves you cold
And I know you
You're in between
Well I need a feeling that will make me scream

I woke up dreaming of your hands and knees
I woke up screaming I don't want to be
And I don't think it's fair
To leave me without air
Well one day soon it's gonna come a long
And leave you cold
Just like you don't belong
Yeah this is the last song you get to sing along

And up above panic goes
Starts this feeling that just leaves you cold
And I know you
You're in between
Well I need a feeling that will make me scream

You're the one for me
Yeah yeah
Yeah you're the one for me
