I wanna share my life with you,
Because I do, and I do babe.

And I'll give everything to you,
Because I know everything about you.
Life is gorgeous just with you.

Life goes on like a movie,
And we are the actors following the faith.
All these years I have waited,
That day we will be together oh yeah.
Thank you for all the joys you brought into my life.
For once upon a time,
It was my guided chance for a while.

I found the real love all this time,
But no one made me feel like you do.

I wanna share my life with you,
Because I do, and I do.
My heart is open just for you.

And I'll give everything to you,
Because I know everything about you.
Life is gorgeous just with you.

I gotta go where I belong,
I gotta learn everything from your heart.
I gotta go where I belong,
I wanna feel perfect; how I need to feel.

I wanna share my life with you,
Because I do, and I do.
My heart is open just for you.

And I'll give everything to you,
Because I know everything about you.
Gotta know everything of your heart.

I wanna share my life with you,
Share my life, share my life.
Life is gorgeous just with you.

I wanna share my life with you.
