Saw your face yesterday  
Or it so seems  
You mean the whole wide  
World to me  
Cause whenever I'm lonely  
Here's the story  
You tease me with your smile  
So pretty by the eyes  
Not a day goes by  
That I'm not singing this lullaby

It seems like yesterday  
When you came my way  
The distant seems so far  
And though we are a part  
That memory of your photograph  
Always stays with me  
That memory of your photograph  
Is what we've come to be

Take a minute  
Just a little while longer  
I hold on tight  
But I'm not any stronger  
Seems like I can't get the message  
I thought we were so perfect  
Your still my favorite crush  
Your my first love  
The friend in despair  
I know you always care

It seems like yesterday  
When you came my way  
The distant seems so far  
And though we are a part  
That memory of your photograph  
Always stays with me  
That memory of your photograph  
Is what we've come to be

Smile at me cross the street  
You still mean the world to me

Such an innocent love  
Your still my hommie whudupp?  
No matter what  
You'll always be my first crush

It seems like yesterday  
When you came my way  
The distant seems so far  
And though we are a apart  
That memory of your photograph  
Always stays with me  
That memory of your photograph  
Is what we've come to be
