Your face has changed, there used to be a glow
Now it's a black window
I walk alone, I ask the night my name
We've come to this again

I wanna walk some new country
See the wheel high from above
I wanna talk some new language
Where our names will mean love

This is for love, this is for love, this is for love
This is for love, this is for love, this is for love

I'm looking out, out on the streets below
I don't know where to go
I hear the lock loud as the mortal bell
Now there's some truth to tell

I wanna walk some new country
See the wheel high from above
I wanna talk some new language
Where our names will mean love
Where our names will mean love

This is for love, this is for love, this is for love
This is for love, this is for love, this is for love
This is for love, this is for love, this is for love
This is for love, this is for love, this is for love
