So empty and cold inside
Too strong to feel
Too weak to cry
Empty inside
Nothing left
And the daylight is fading

Just for a short time then Iâ€™ll be back
To hold you hand and whisper that
I love you softly in your ear
To hold you tightly throughout the year
Until the summer when I leave
All the sunshine makes me greave
For all the things we used to do
All my love remains with you

So empty and cold inside
Too strong to feel
Too weak to cry
Empty inside
Nothing left
And the daylight is fading

Just because I have to go
It doesnâ€™t mean you should no
Just how much I care for you
And that my love is always true
I will miss you lots everyday
I will call you up just to say
I need you now to make me smile
And to hold my hand just for a while

So empty and cold inside
Too strong to feel
Too weak to cry
Empty inside
Nothing left
And the daylight is fading

The daylights fading
The night is coming in
Thatâ€™s the worst time.

The pain within
I feel like ice
Im so cold inside
Hypnotised
It's so hard to feel
When you're paralyzed by pain

Just to hear you name
Make me whole again
Just to see you smile
Hold me close a while
Just to kiss your lips
With your hands on my hips
Make me whole again
Take away the pain
