Open to discussion
Were the moguls from the top
I didn't want a failure
And they didn't want a flop
So I drew the plans up carefully
With the strength in the design
And I signed it with my signature
To show that it was mine

But I waited all that morning
And I waited all the next
Preparing for an interview
By reading from the text
But they didn't get my letter
So they couldn't really tell
So I made this bomb for the GPO
To blow them all to Hell
To blow them all to Hell
To blow them all to Hell
